Stay in Thailand June 2016

The new school year started about half May in Thailand. We met the sponsored students and selected new ones for scholarship. Until now, already 369 secondary students were sponsored by Belgisaan : on this way, they had the opportunity for a better future.

We visited also the students of our “Food Program”, including some new ones. Until now, 55 primary students joined this project, and so they don't need to study with an empty stomach. At home, they have often a lack of food

The people of Belgisaan received in the school Tessaban5 of Udon Thani a framed caricature with clock as thank for the help in their school, drawn by a teacher. The collaboration in the schools is very good: they appreciate the work of Belgisaan.

The children of the “Food Program” from the school Anuban Banphu received a small gift from us.

The selection of the new sponsored students happens by the school in collaboration with Belgisaan. We go visit their home and meet their family. There is so a good relationship with them. Also this school year some new students joined Belgisaan

We distributed clothes tot he poor people of Nongkhuakhu

We visit regularly the people in the villages to help and assist.

Years ago, when they were in the primary school, we met Watcharee Boonchu and Puwanat Songkeaw in the slum of Udon Thani. Belgisaan took care of them since then. These children had no future. Thanks to the help and the scholarship of Belgisaan, they could continue study in the secondary school. In May Watcharee started her 6th secondary and Puwanat his 5th (cfr picture): they realize that they will have a future thanks to their study and they are very thankful to us.

Tanabadee Sekim, a boy of secondary 2 of the school of Nongkhuakhu, is also sponsored by Belgisaan. He has no family and an old woman takes care of him as a grandmother. She is very poor and do sometimes small works, but not enough to live for 2 people.

Phimonsri Deemun, a girl of secondary 3 of the school of Banphupittayasaan, has a bad view. She broke her glasses accidentally and she could not follow the lessons at school. Buy new glasses was too expensive for her family. Belgisaan bought new glasses for her. She is a good student and is happy that she can follow the lessons again.

In the school Booriban Banphu was a girl who get not yet scholarship: she is very poor and needed help to continue her study. Belgisaan helped her.

Naharutai Keawsecha, a girl of secondary 2 of Nongkhuakhu, received scholarship from the Belgian school of Slijpe. This school gave extra money so that she could go shopping with us to buy useful things for at home.

You can see one of our staf, Mangkorn, who give money to a very poor and sick man which we meet daily on the road between Udon Thani and Banphu. This man was very happy that some people take care of him.

We meet sometimes gratuated students who have now a good work thanks to the scholarship. On the left Manoon-Noi who is supervisor in a big restaurant at the seaside in Thailand and on the right Suwat who is teacher of Thai language.

We are regularly invited in the schools to have lunch with the teachers. We enjoy the Thai food. Here on the picture, we are eating in the school of Booriban Banphu with our stafmember Jirawan. We would like to thank her for the good help.
